

HSRC100G, Gray

HSRC100T, Taupe

HandiSolutions introduces our new Handi Recycling Center. This product now makes it easy to get those recycle bins up and off the floor. Each kit comes with two 18 gallon containers with easy to use flip-up tops, and the necessary brackets for hanging onto the Handiwall™. The containers are stackable and mount one on top of the other to save wall space. Each container will hold up to 50 lbs. of recyclable materials or bulk items such as bird food, dog food, and ice melt. The product is available in two color schemes; taupe bins with blue tops or gray bins with black tops.

Mounting brackets included for hanging onto the Handiwall™.
